JEWELS BY RICHA

Website & Admin Panel — Quotation & Technical Feature List

Stack: Next.js 16 · React 19 · PostgreSQL + Prisma · Tailwind CSS v4 · Razorpay · Cloudinary · Nodemailer

Client: Richa Marwaha Jain
Prepared by: Priyank Bohra
Date: October 2026
Total: Rs. 13,000

1. Storefront Features (Customer Website — As specified in FEATURES.md)

Area	Exact Features Built (from FEATURES.md)
Browsing & Design	• **Design:** Gold / ivory / black palette with serif + script typography, built for phones, tablets, and desktops. • **Homepage:** 3-slide photo hero (auto-play, arrows, dots), trust strip, 2 collection banners, 'Shop by category' (max 8, chosen in admin) with 'View all categories' link, bestsellers with Festive / Anti Tarnish tabs, brand story, new arrivals, customer reviews, and Instagram gallery. • **Collections & Categories:** 2 collections, 19 categories (Festive: Kashmiri Watches, Necklaces, Heritage Bangle Kada, Pendant Sets, AD Bangle Kada, Kashmiri Earrings, Moissanite Earrings, Festive Bracelets, Stud Earrings · Anti Tarnish: Mangalsutra, Bracelet Kada, Chain Bracelets, Rings, Hoop Earrings, Danglers Earrings, Studs Earrings, Chain Necklaces, Combo Necklace Packs, Watches). • **Navigation:** Sticky header with collection mega-menus, mobile slide-in menu, rotating announcement bar (free-shipping threshold from admin settings). • **Shop Pages:** Shop all, by collection, or by category with sorting (featured, newest, price, rating), price-band and in-stock filters, category chips, and 'Show more' pagination (12 at a time). • **Dedicated Pages:** All categories, Bestsellers, New arrivals, Collections. • **Search:** Search overlay with instant results (product name and category). • **Product Page:** Photo gallery (thumbnails on desktop, swipe on phones), price with MRP and % off, rating, feature chips, stock status ('Only 3 left'), quantity selector, Add to bag / Buy now, wishlist, accordions (description, material, care, shipping), 'You may also love', sticky add-to-bag bar on phones, and automatic illustrated placeholders for products without photos.
Bag, Wishlist & Checkout	• **Bag:** Slide-out bag drawer and full bag page with free-shipping progress bar, quantity edits, remove, 'Complete the look' suggestions, and sticky checkout button on phones. • **Wishlist:** Works for guests in browser, automatically saved and merged into account after sign-in. • **Checkout:** Contact and delivery form (pre-filled from account default address), saved-address picker, live coupon validator (re-checked on bag/payment change), UPI / card / Cash on Delivery (COD), order summary, sticky pay button on phones. • **Orders:** Order confirmation page, guest checkout supported.
Customer Accounts	• **Auth:** Register with emailed 6-digit OTP, sign in, forgot / reset password via OTP, sign out. • **Account Area:** Overview (orders, wishlist, total spent), order history with pagination, order details with progress tracker and courier tracking number, order cancellation (while allowed), pay-again for unpaid online orders, saved address book (add/delete/default), profile edit. • **Guest Order Linking:** Guest orders placed earlier with the same email attach automatically on sign-up.
Content & SEO	• **Content Pages:** About, Care guide, FAQ, Contact (messages saved to admin), Shipping & returns (uses live fee settings), Privacy policy, Terms. • **SEO:** Server-rendered catalogue, per-page meta titles/descriptions, Open Graph tags, product JSON-LD structured data, dynamic sitemap.xml and robots.txt, proper 404 status handling.

2. Admin Panel & Backend Architecture (As specified in FEATURES.md)

Section	Exact Capabilities Built (from FEATURES.md)
Admin Panel (/admin)	• **Dashboard:** Revenue, order count (with pending), customers, products, 30-day sales chart, top categories, recent orders, low-stock list (aggregated in database). • **Products:** Paginated list (20/page) with search, category/status/stock filters, 1-click publish/unpublish, add/edit/delete, photo uploader (Cloudinary, multiple, reorder, cover), price + MRP, stock, badges, SEO slug. • **Categories:** Add/edit/delete (blocked while has products), show/hide, choose max 8 on homepage, sort order. • **Orders:** Paginated with status tabs, search, order detail, change status (Pending -> Confirmed -> Shipped -> Delivered / Cancelled), add tracking number, cancel with automatic restock & coupon release, ship/cancel emails. • **Customers & Coupons:** Customer list with order counts & spent; coupon creator (flat/percent, minimum order, per-customer limit, first-order-only, COD switch, live usage counts). • **Messages & Settings:** Contact inbox, newsletter subscriber count, shipping fee & COD fee controls, free-shipping limit, contact info, admin password change.
Backend & Security	• **PostgreSQL + Prisma:** 19 database tables, server-side tamper-proof pricing, atomic checkout transactions (prevents overselling), 1-hour unpaid order auto-cancellation cron job. • **Payments & Emails (needs keys):** Razorpay UPI/card order creation, signature verification, webhook; Nodemailer HTML transactional emails (OTP, confirmation, shipped, cancelled); Cloudinary 8 MB photo upload. • **Security:** Bcrypt password hashing (cost 12), encrypted httpOnly SameSite sessions, 3-layer rate limiting (per-IP flood limiter, per-IP write limiter, route-specific limits), CSRF protection, and Zod input validation.
Explicitly Excluded ***(Per FEATURES.md Section 7)***	Automated refunds (refund manually in Razorpay), GST invoices, courier/shipping-label auto-generation, customer-submitted product reviews, multi-staff admin roles, multi-language.

3. Commercial Quotation & Payment Terms

Fixed-price turnkey delivery for the complete website, backend database, and admin management suite:

Payment Stage	Deliverable Scope	Status	Amount (INR)
Advance Payment	Project Kickoff, initial UI build & repository architectural setup	**PAID**	**Rs. 2,000**
Balance Payment	Final handover, client account connections, domain setup & taking the website live	**Payable When Live**	**Rs. 11,000**
TOTAL PROJECT FEE	**Full custom storefront, admin panel, PostgreSQL backend & 100% code ownership**	**Fixed**	**Rs. 13,000**

4. Go-Live Requirements (What We Need from Client)

To take the website live and enable online payments and emails, the client provides their account credentials as detailed in the *Information Checklist*: **1. Razorpay** (KYC approved for live payments & webhook), **2. Cloudinary** (free tier for product photo uploads), **3. SMTP Email** (for sending OTPs and customer notifications), **4. Domain & DNS Access** (to link jewelsbyricha.in to Vercel).
