JEWELS BY RICHA

Commercial Quotation & Technical Feature Specification

Anti-Tarnish · Waterproof Luxury E-Commerce Platform & Admin Suite

Date: October 2026
Version: 1.0 (Final)
Client: Richa Marwaha Jain
Prepared by: Priyank Bohra

1. Technology Stack & Enterprise Architecture

This project delivers an enterprise-tier, custom-engineered direct-to-consumer (D2C) e-commerce system built from the ground up specifically for **Jewels by Richa**. Unlike rented templates (Shopify/WooCommerce), this custom architecture incurs **zero monthly app subscription fees**, delivers sub-second load times, and gives the brand 100% ownership of all data, business logic, and intellectual property.

Storefront: Next.js 16 (App Router) & React 19	**Database:** PostgreSQL via Prisma ORM
Styling: Tailwind CSS v4 (Custom Luxury Theme)	**Payments:** Razorpay UPI, Cards, Netbanking + COD
Authentication: iron-session (Encrypted, HttpOnly)	**Media & Storage:** Cloudinary CDN + Auto-compression
Security: 3-Layer Rate Limiting & CSRF Shield	**Email Engine:** Nodemailer Transactional HTML Engine

2. Comprehensive Feature Scope (Storefront & Admin Suite)

Below is the complete itemized breakdown of features built and delivered as defined in the technical specification:

Subsystem	Delivered Capabilities & Features
Storefront & Browsing	• **Luxury Aesthetic:** Bespoke Gold/Ivory/Dark palette with Cormorant Garamond serif & script typography. • **Homepage Showcase:** 3-slide photo hero, trust strip, collection banners, dynamic 'Shop by Category' (curated 8 categories), bestsellers tabs (Festive/Anti-Tarnish), brand story, customer reviews, and Instagram gallery. • **Catalog Architecture:** 2 Collections (Festive, Anti-Tarnish), 19 categories, sticky header with mega-menus, mobile drawer, instant search overlay, and dedicated category listing pages. • **Product Detail Page:** High-res photo gallery with swipe/thumbnails, MRP strike-through with % discount, stock countdown ('Only 3 left'), accordion info tabs, sticky Add-to-Bag bar on phones, and automatic illustrated placeholders for unphotographed items.
Cart, Wishlist & Checkout	• **Dual Cart Experience:** Slide-out quick drawer and full bag page with real-time free-shipping progress meter. • **Smart Wishlist:** Guest wishlist stored in browser, auto-merged into account upon customer login. • **Server-Side Pricing:** Tamper-proof price calculation directly against PostgreSQL database (prevents price manipulation). • **Atomic Checkout:** Single-transaction inventory reservation and coupon burning (prevents overselling). • **Payment Gateway:** Razorpay integration (UPI, Credit/Debit cards, Netbanking) with automated webhook verification. • **Cash on Delivery (COD):** Configurable COD fee and minimum order rules.
Customer Accounts	• **Passwordless OTP Registration:** 6-digit secure email OTP verification with attempt throttling. • **Self-Service Portal:** Order history with status progress bar, courier tracking numbers, one-click cancellation. • **Address Book:** Multi-address management (save, edit, delete, default delivery selection). • **Automatic Guest Order Syncing:** Orders placed prior to account registration automatically attach to user profile.

Enterprise Admin Suite (/admin)	• **Executive Dashboard:** 30-day interactive sales charts, revenue metrics, top-selling categories, and low-stock alerts. • **Product Management:** Server-paginated product catalog (20/page), Cloudinary photo uploader, cover photo selector, price/MRP edits, badges (Bestseller, Featured, New), SEO slug customizer. • **Order Fulfillment Pipeline:** Comprehensive order workflow (Pending → Confirmed → Shipped → Delivered / Cancelled), tracking number assignment, and automatic inventory restoration on cancellation. • **Coupon Controller:** Flat Rs. / Percentage off, expiry dates, per-customer limits, first-order-only rules. • **Customer & Inquiries Hub:** Customer purchase history tracking, contact form inbox, newsletter subscriber export. • **Store Settings:** Live adjustment of shipping fees, COD fees, free-shipping threshold, contact info, and admin password.
Security, Performance & SEO	• **Triple-Layer Rate Limiting:** Protection against brute-force logins, bot spam, and checkout floods. • **CSRF & Session Security:** Encrypted SameSite=Lax httpOnly cookies, bcrypt cost 12 password hashing. • **Automated Cron Engine:** Scheduled cleanup task releasing inventory from abandoned online orders after 1 hour. • **SEO Optimization:** Pre-rendered pages, JSON-LD structured data for Google Rich Snippets, automated sitemap.xml & robots.txt.

3. Commercial Quotation & Investment Schedule

The project has been planned as an all-inclusive, end-to-end turnkey solution covering design, engineering, integrations, and deployment:

Module / Deliverable	Scope Summary	Amount (INR)
Module 1: Luxury Storefront & UI/UX	Custom gold/ivory theme, mobile-responsive layout, mega-menus, product detail page, search, cart & wishlist.	**Rs. 28,000**
Module 2: Checkout, Payment & Coupon Engine	Razorpay gateway (UPI/Cards), Cash on Delivery, atomic stock lock, server pricing, coupon validation.	**Rs. 18,000**
Module 3: Customer Accounts & Notification Engine	Email OTP verification, self-service tracking, address book, automated HTML email triggers.	**Rs. 14,000**
Module 4: Enterprise Admin Management Suite	Dashboard analytics, product catalog manager, photo upload, order fulfillment pipeline, coupon & settings controller.	**Rs. 22,000**
Module 5: Database, Security & SEO Infrastructure	PostgreSQL setup, Prisma ORM, 3-layer rate limiting, automated stock release crons, JSON-LD rich snippets.	**Rs. 13,000**
Module 6: Deployment, Smoke Testing & Launch	Automated 50+ smoke test suite, production deployment on Vercel + Neon, domain configuration, handover.	**Rs. 5,000**
Total Project Scope Value	Cumulative itemized value for standalone modules	**Rs. 1,00,000**
Turnkey Package Discount	Special package concession for complete end-to-end platform commitment	**- Rs. 15,000**
FINAL NET INVESTMENT	**Full bespoke platform delivery with complete codebase ownership**	**Rs. 85,000**

4. Milestone Payment Schedule

Milestone	Project Phase / Deliverable Trigger	Share	Amount (INR)
Milestone 1	Project Kickoff & Scope Confirmation (Repository setup & architectural baseline)	30%	**Rs. 25,500**
Milestone 2	Storefront & Catalog Review (Complete responsive browsing experience & cart)	30%	**Rs. 25,500**
Milestone 3	Admin Suite & Integration (Razorpay test mode, OTP email engine, admin controls)	30%	**Rs. 25,500**
Milestone 4	Final Launch & Handover (Domain mapping, production database, admin credentials transfer)	10%	**Rs. 8,500**

5. Support, Warranty & Client Prerequisites

• **30 Days Hypercare Support:** Comprehensive post-launch warranty covering bug fixes, performance monitoring, and staff walkthroughs at no additional charge.
• **Client Prerequisites (Phase 10 Go-Live):** To activate live online payments, media uploads, and email alerts, the client supplies API credentials for Razorpay, Cloudinary, SMTP, and domain DNS access as outlined in the *Information & Assets Checklist*.
• **Zero Platform Subscriptions:** Eliminates Shopify monthly app tiers and plugin licenses, keeping operational costs strictly to base hosting and standard payment gateway processing fees.
